Below are the details of your internship offer:

Position: **SDE Intern**

Duration: **4 Months**

Start Date: **20/03/2025**

Stipend: ₹5,000 per month (in hand)

Working Hours: **9:00 AM** to **4:00 PM, Monday to Friday**

Location**:** Shop No.9,Gurusingh Market,Shyam Talkies Compound,Nanded

Note: You may be required to work additional hours depending on the business requirements. Other Terms:

- **This internship is non-permanent and temporary.**
- **All company information must be treated as confidential.**
- **You will receive training and mentorship throughout the internship.**

We look forward to welcoming you to our team!!!

Best regards,

June 24, 2025
Mr. Varad Chandrawar
Nanded

INTERNSHIP COMPLETION CERTIFICATE

TO WHOM IT MAY CONCERN

This is to certify that Mr. Varad Chandrawar has successfully completed his internship with us at Busy Men's Solutions as an **SDE Intern**, from **20 March 2025 to 20 July 2025**.

During this period, his performance was found to be satisfactory. He actively contributed to software development, system design, and technical analysis as a part of our development team. Throughout the internship, we found him to be sincere, dedicated, and an enthusiastic learner who showed great interest in acquiring new skills and delivering quality outcomes.

We wish him all the best in his future endeavors.

Shailendra Joshi

Director
Busy Men's Solutions

ACKNOWLEDGEMENT

I am greatly indebted to my project guide, **Ms. Kale Jyoti S.**, for her able guidance throughout this work. It has been a truly enriching experience to work under her supervision, and I would like to sincerely thank her for her help, suggestions, and numerous discussions.

I would also like to express my gratitude to **Dr. A. M. Rajurkar** (Head of Computer Science & Engineering, MGM's College of Engineering, Nanded) for his constant encouragement and support.

I am heartily thankful to **Dr. G. S. Lathkar** (Director, MGM's College of Engineering, Nanded) for providing the necessary facilities during the progress of the project and for her kind help, guidance, and inspiration.

Last but not least, I am also thankful to all those who helped me directly or indirectly in the development and successful completion of this project.

With Deep Reverence,

Varad Chandrawar

ABSTRACT

During my 4-month internship at Busy Mens Solutions, I worked as a Junior Software Developer on two industry-relevant software projects that addressed daily operational challenges faced by local businesses. The first project was a Restaurant Billing System developed using Visual Basic, aimed at simplifying order entry and bill generation in small restaurant setups. Key features included manual dish entry with prices, quick-add buttons for commonly ordered items, a real-time billing display with quantity tracking, support for applying discounts (both flat and percentage-based), and functionality for item removal, resetting, and invoice preview or print. The design emphasized ease of use and fast operation to accommodate non-technical staff. The second project was an Inventory Management System developed for retail environments, covering modules such as staff details, delivery partner information, product listings, order handling, daily sales logging, and automated profit and loss computation. The system featured an organized user interface with dynamic forms, data validation, search and filter options, and exportable reports for business insights. Following development, I visited the client's store to assist employees in using the systems, address on-site queries, and collect feedback for further enhancement. This internship strengthened my skills in frontend development, UI design, software deployment, and real-world user collaboration, while giving me hands-on experience in building functional and practical software.
